About us.

Innovant, artisanal et artistique

Our parent company is a global leader in the fabric flower industry. Our latest innovation, REAL TOUCH fabric, captures the softness and freshness of natural blooms. That is why every stage of crafting our flowers—from design to creation—is meticulously controlled, with devoted attention paid to even the finest details.

Each flower is lovingly hand crafted in our own atelier by artisans with at least ten years of experience. Every step of production—cutting, shaping, painting, and assembling—is carried out with utmost care. This is how our flowers preserve a bloom's most beautiful moment... for a lifetime. We have created floral décor for FENDI CASA, BENTLEY HOME, and TRUSSARDI CASA, among others, and have been a proud partner of the Luxury Living Group since 2017.

Our creative center is located in the heart of Paris, where our designers draw inspiration from the beauty of nature and follow the trends of each season. We collaborate with renowned artists who inspire us to create flowers of exceptional creativity and artistry. We also operate a dedicated florist platform to best showcase the staging of our flowers and plants. Furthermore, we are the exclusive partner of the French National Florist School and the country's only vocational school specializing in artificial flowers.
